

# NEWSLETTER AUGUST 2015

## **HOME & DRY**

Home and Dry for treating grain on farm is on the increase over the past number of years . For farmers looking to cut costs on bought in feed are seeing the advantage of treating grain direct from the combine . Home & Dry is a great product which can reliably convert 60% starch grain into an alkaline feed while increasing the protein by 4.5% . It also allows treated grain to be stored right through the winter in a very stable situation . We are sourcing grain direct from the combine whole or treated delivered to your yard . For more details contact us .

## **GRASS SEED**

Farm Store Top 5 Extend are the grass mixes that should be considered for your reseedling . The Top 5 range contains varieties with outstanding performance and are extremely suited to intensive grazing or silage systems . Below are varieties in our Top 5 grazing mix  
ABERGAIN : This variety scores top of the list on the Teagasc Pasture Profit Index 2015  
ABERCHOICE : Second on Teagasc PPI list highest yielding Diploid  
DUNLUCE: Scoring highest on intermediate PPI list for 2015  
DRUMBO : Late heading date and scoring well for DMD %

## **MOOCALL**

New technology for farmers at calving time . Attach Moocall to a cows tail and receive a text alert approx. 1 hour before the cow calves . The Moocall can alert up to 2 mobile phones . Rechargeable battery that lasts up to 30 days . No additional hardware required . Once that cow has calved simply move it on to next cow near calving . Moocall monitoring cow & calf . Contact The Farm Store for more details .

## **FENZ-ON**

Fed up of trying to fix a broken wire, at the far end of the farm , its an awful long way back to turn off the fencer. Maybe Fenz- On could solve all these problems . Fenz – On is an automated 3 pin plug which you plug in to the wall socket and it turn plug your mains fencer into this automated plug . The automated plug can then be turned on and off just by ringing the mobile number that comes with the plug . So ring it once to turn it off and ring it again to turn it back on . Simple !!
